References

Michał Grajewski has been employed in Zespół Szkół Mechanicznych (Complex of Mechanical Schools) since 1st September 2010 as a teacher of vocational subjects in the area of IT.

Since the beginning of his employment he has been giving classes on:

- structured and object-oriented programming
- operating systems and computer networks
- making of Internet applications
- Internet applications
- extended IT
- specialisation classes

Michał Grajewski has also been giving additional classes for students who want to expand their interests in IT. These classes are very popular among students and are approved by the head teachers. The classes are well prepared content-wise as well as curricular what was confirmed during auditing. It is the best proof not only for professional competences of Michał Grajewski but also for his creativity, openness and model relationship with the students.

During the classes Michał Grajewski prepares students of Complex of Mechanical Schools to external vocational examinations confirming their qualifications as IT technicians. His students have great vocational knowledge and skills reaching beyond curriculum. Mr. Grajewski is one of the few IT teachers whose students pass their vocational exams on nearly 100%. Michał Grajewski also promotes our school.

He is open to meet school's needs and expectations. He does different actions on his own initiative:

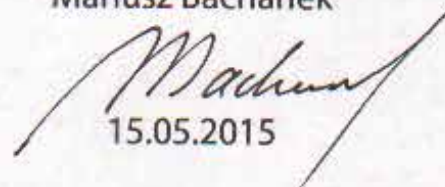

- he maintains teachers' computers in the school;
- maintains hardware and software for school's administration
- performs a task of purchasing computer equipment and components for school's administration and class rooms;
- fixes computer networks and extends backbone fiber optic network;
- he made a school's directory, information on covers and notices are displayed on a 50 inches screen
- he made a list of all school's computers' software; he controls school's software-
- he inspires his students to program Lego robots, makes his own projects which are accessible to a local community
- he initiated an idea NAS Server for backups.

Michał Grajewski's work in the Complex of Mechanical Schools is beyond his duties as a teacher. He not only carries out tasks given by head teacher but also comes up with his own ideas. Michał is a professional. All the given tasks are carried out quickly, efficiently, on time and perfectly.

Michał is a young man with a great work experience who systematically widens his knowledge and skills which is important in IT. He willingly takes part in all professional trainings, workshops and conferences. He is open to new solutions and what is more important despite his own competences he does not ignore others' opinions. He can work in a team as a leader and as a co-worker. Michał can quickly make appropriate decisions.

Michał Grajewski is employee valued by the head teachers, he is also a kind-hearted co-worker. As a computer scientist he helps a lot of people. Competences, creativity, openness to new solutions cooperative skills kindness and good manners make Michał Grajewski an employee welcome by each and every IT employer using advanced technologies.
